

CREATING IBM CLOUD SERVICE

Date	05 NOVEMBER 2022
Team ID	PNT2022TMID42278
Project Name	Hazardous Area Monitoring for Industrial Plant Powered by IOT

The screenshot displays the IBM Cloud dashboard interface. At the top, there's a navigation bar with the IBM Cloud logo, a search bar, and links for 'Catalog', 'Manage', and 'Sowmiya N's Account'. Below this, the 'Dashboard' section features a 'For you' area with several recommended actions:

- Build**: Explore IBM Cloud with this selection of easy starter tutorials and services.
- Set up your IBM Cloud account**: Learn how to set up your IBM Cloud account, manage your account settings, organize resources, and control access to those resources. (Getting started, 10 min)
- Use Watson Studio**: Watson Studio provides a suite of tools and a collaborative environment for data scientists, developers and domain experts. (Popular, 2 min)
- Moving your application to the cloud**: Plan the right approach for a successful cloud migration. (Recommended, 5 min)
- Build and deploy Node.js apps**: Go from zero to production in minutes with your Node.js applications, integrate with Watson and other services, scale your microservices. (Recommended, 15 min)

At the bottom, there are sections for 'User access' (Manage users), 'News' (View all), and 'Planned maintenance' (View all). The Windows taskbar at the very bottom shows the search bar, various application icons, and system status information including temperature (16°C) and date/time (22:31, 05-11-2022).

An IBM cloud Service created successfully.
